DETAILED OF SPARE PARTS

In this parts list appear the details relating to the component and accessory parts for chassis of H1.5,1.8TX,H2.0TXS(-EG/ET/EL/92), H2.0,2.5TX(-EG/ET/EL/2G/2T/2L/92/98), H3.0,3.5TX(-2G/2T/2L/98) models.

When placing your order,please specify precisely serial No.,part No.,part name(s) and quantity.

[1] This list includes the following indications :

- Reference Ex.: 1-, 2-
number The above-mentioned numbers indicate the reference No. of the parts which constitute the projection drawings. However, the assembly parts are not marked in principle.
- Part No. State in figures the part and assembly.
- Description ... Gives the name of each component part. This column also comprises hereafter two items. Due to space, they may be mentioned in the column provided for remarks.
 - (1) Minimum but necessary specifications
 - (2) Indication of the category to which the parts are related
 - (3) (NA) attached to the head of a part name shows that the part is not supplied
- Quantity The required number of parts is stated. The items marked with AR are used for the required quantity of parts which varies as the case may be.
The figures coming with an asterisk (*) show the maximum number of parts to be used and the quantity for use should stand in this limit.
- Remarks In this column are included the following particulars : Applying model ...
Indication of the applying engine or model Mention of the successive changes which have been made (refer to paragraph entitled "Exchange of parts").
Specifications (see the item concerning the abbreviations)
Other reference items

[2] "Right hand" and "Left hand" references contained in the parts list are determined in relation to the forward motion of the fork lift truck.

[3] The abbreviations used in the list have the following meanings :

AR... The required number of parts is stated. The items marked with AR are used for the required quantity of parts which varies as the case may be.

* ... The figures coming with an asterisk (*) show the maximum number of parts to be used and the quantity for use should stand in this limit.

[4] Exchange of parts

Note that the parts numbers are subject to change without notice.

- 1) When parts should be replaced and if there is no interchangeability, the numbers for parts of "late" and "early" types will be indicated. In this case, the truck model and the intervals for part exchange will be added.
- 2) In the above-mentioned case, the figures 1,2, etc. which mention the number of times the part exchange has been carried out will be appended to the reference numbers.

HOW TO ORDER SERVICE PARTS

In order to avoid delay, unnecessary correspondence and to have your orders filled correctly, promptly and at the least possible expense, the following is the recommended procedure to use when ordering replacement parts.

WHEN ORDERING PARTS

Contact your authorized *HYSTER* Dealer giving him the following information.

1. Your purchase order number.
2. Complete invoicing and shipping address.
3. Specify the method of shipment, otherwise the least expensive method will be used.
4. Correct part number(s) and description(s). Use your parts manual as a reference.
5. Model and serial number of the truck.

IMPORTANT

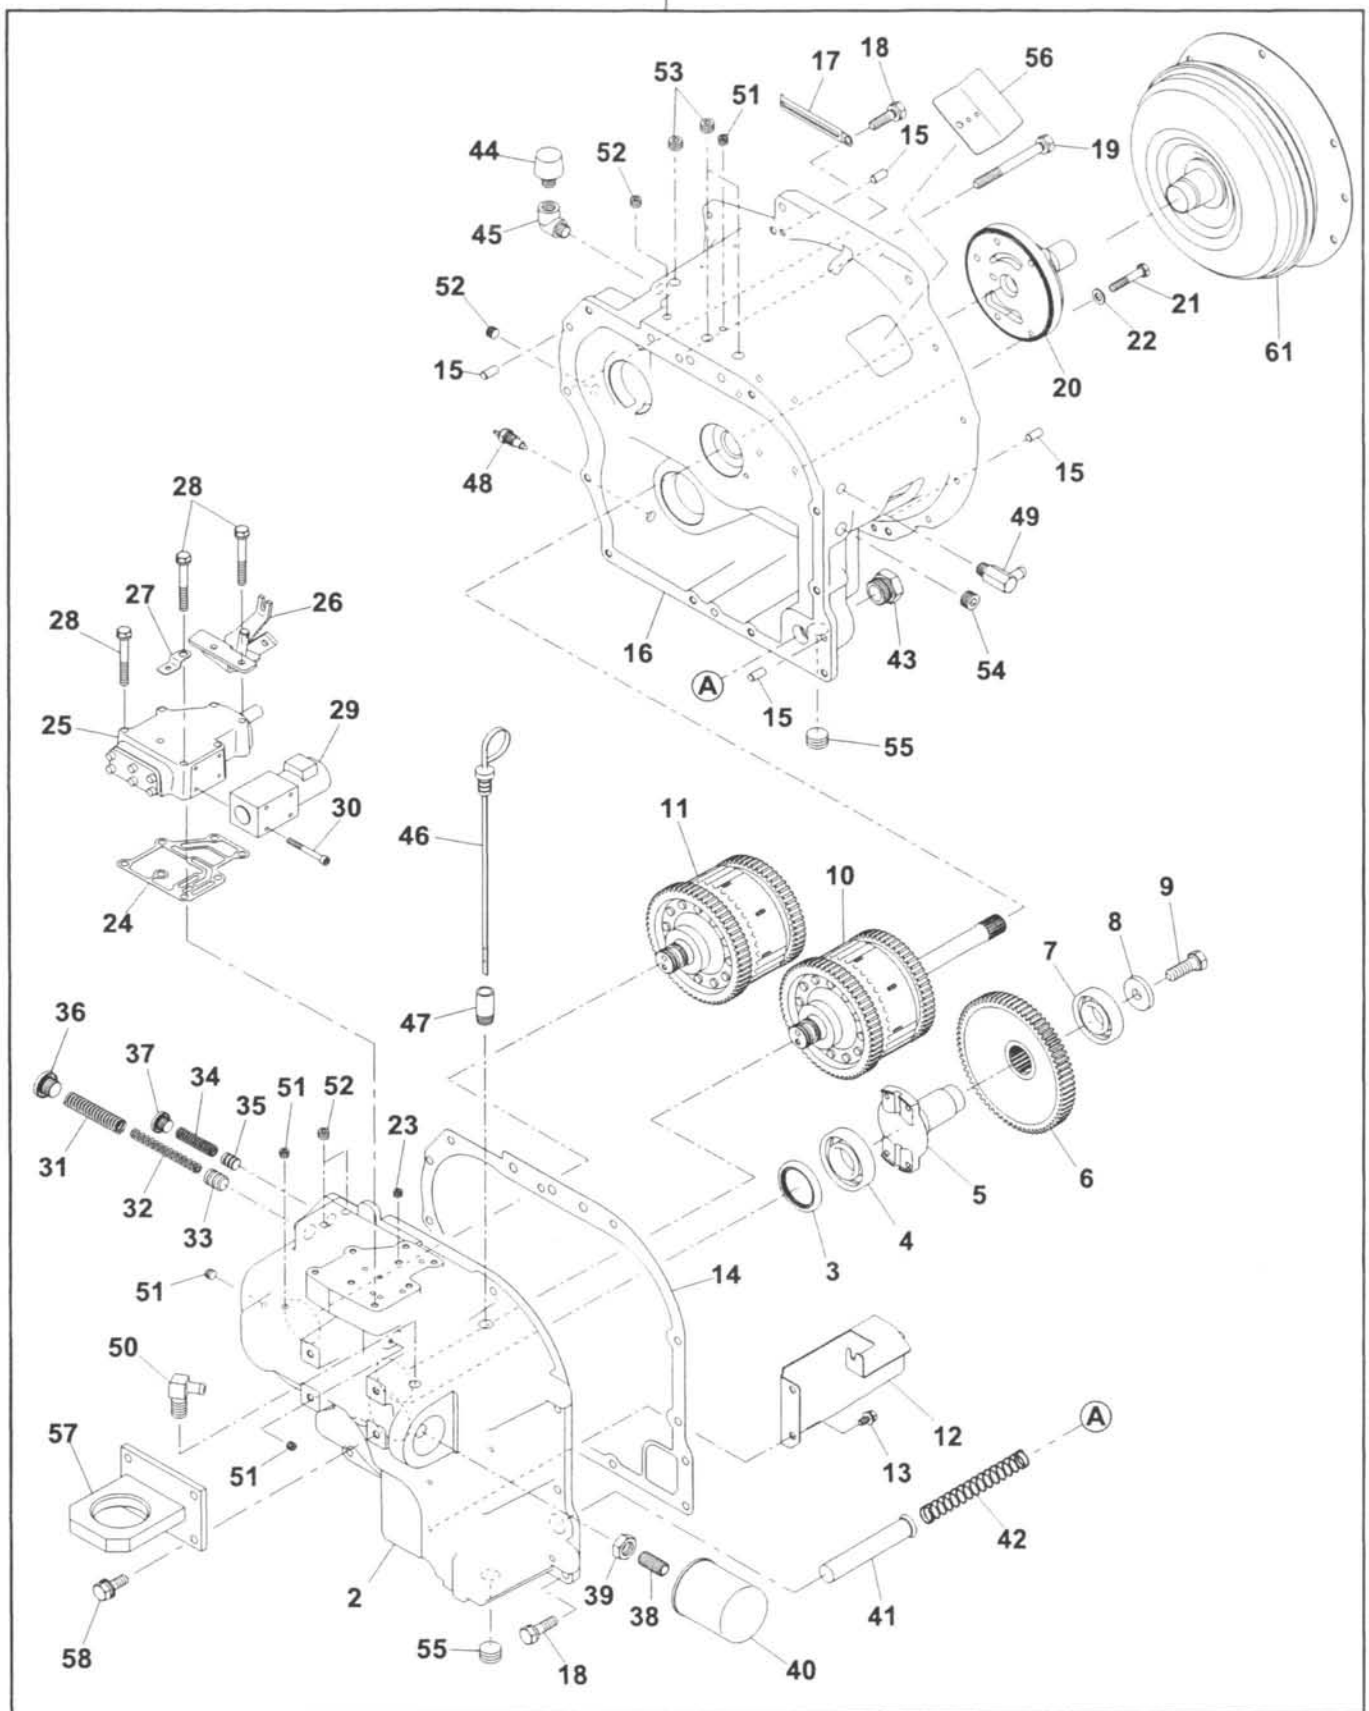

Your parts manual contains alternate pages on certain parts. Please check your truck model on the nameplate and verify which of these items is correct. Specify the correct part number when placing your order.
